

Underground-ready electrical, **without the big-contractor overhead.**

NCP Electrical is a family-run, ECRA/ESA-licensed electrical contractor based in Greater Sudbury. Mining and heavy industry are the heart of our work — underground and surface — delivered by a small crew that shows up ready for the gate, works to site standards, and prices fairly.

LICENCE ECRA/ESA #7015906	BASE Greater Sudbury, ON	COVERAGE Ontario-wide	AVAILABILITY 24/7 response

CORE CAPABILITIES

- **Underground power distribution** — installs and extensions on active levels, to drawings and site spec
- **Motor & panel hookups** — equipment connections, terminations and commissioning support
- **Fault-finding & troubleshooting** — on live operations where downtime is the real cost
- **Surface & plant electrical** — shops, dries, hoists, ancillary buildings and site infrastructure
- **Industrial maintenance support** — scheduled and call-out electrical for operating sites
- **Commercial & institutional** — full-range licensed work beyond the fence line

SITE READINESS

Crew trained to mine-site safety standards Site-specific orientations and sign-ins handled the way each operation expects.	Mine-site-ready truck & equipment Set up to get onto mine property and through the gate with the crew and gear aboard.
Licensed & documented ECRA/ESA Licensed Electrical Contractor #7015906 — work done to code and signed off.	Right-sized for the work A small, accountable team — the people quoting the job are the people doing it.

WHY OPERATIONS CALL US

Quick mobilization without big-contractor minimums. Clear quotes before work starts and no surprises on invoices. A crew that's from Sudbury, built around mining, and answerable by phone — day or night. We're sized for the service calls, hookups and distribution work that large EPCM contractors don't want and general electricians can't get on site to do.

Have a scope in mind? **Let's talk.**
